

TOP PRIORITIES FOR TODAY'S UK TRANSPORT SECTOR

The transport sector is at a critical crossroads, challenged by skills shortages and rapid tech change. To meet future demands, it must urgently focus on these key priorities:

Tackle the Skills Shortage

- Strengthen workforce planning with schools and colleges
- Modernise working conditions and career pathways
- Rebrand transport as a dynamic, future-focused industry

Improve Diversity & Inclusion

- Launch targeted recruitment for under-represented groups
- Promote inclusive workplace cultures
- Support diverse leadership through mentorship and structured career paths

Invest in Infrastructure, Tech & People

- Reskill workers affected by automation
- Integrate new tech with human oversight
- Upgrade networks for sustainability and growth

Foster Public-Private Collaboration

- Drive investment in digital, green and modern transport
- Support franchising reforms with local authorities
- Collaborate to bridge skills gaps and boost service delivery
